

Introduction of sanitary and phytosanitary checks on GB-EU imports in 2022

- All SPS movements into GB must be pre-notified via IPAFFS
- Certification and physical and identity checks introduced for:
 - High-risk regulated animal byproducts
 - All regulated plants and plant products
 - All meat and meat products
 - High-risk food not of animal origin

- Certification and physical checks will be introduced for all dairy products
- Certification and physical checks will be introduced for all remaining regulated products of animal origin, including composite and fish products
